

Referencing Pattern

References should be given at the end of the manuscript. Abbreviated names of journals should be used. References should be cited in their present language, and should not be translated. The reference list should only include works that have been published or accepted for publication. Personal communications (or any unpublished work) should only be mentioned in the text. References could include following publications:

Journal Article

- *One Author:*
Spencer J. Physician, heal thyself - but not on your own please. *Med Educ* 2005; 89: 548-49.
